

Technical drawing of a slab reinforcement plan. The drawing shows a rectangular slab with dimensions 17'-9" by 3'-0". The slab is divided into three sections by two parallel lines. The top section is labeled "24\" TILE GRADE 23.40" and has a width of 9'-4". The middle section is labeled "26\" TILE GRADE 23.40" and has a width of 8'-6". The bottom section is labeled "32\" TILE GRADE 21.40" and has a width of 6'-5". The total width is 17'-9". The length of the slab is 3'-0". The drawing also shows a cross-section of the slab with a circular hole of diameter 26" (D=26"). The cross-section shows a concrete slab with a reinforcement bar (B) and a dimension of 6'-3" for the width of the slab. The drawing includes various dimension lines and labels for the reinforcement bars and the slab sections.
